

ENVIRONMENT POLICY

Delhi International Airport Limited (DIAL) is committed to conduct its business in an environment friendly and sustainable manner at IGI airport by minimizing the impact of our activities on the environment and our community.

Environmental Management is an integral part of our business strategy towards achieving credibility and business sustainability. Management is committed to the protection of environment, climate change mitigation & adaptation and sustainable usage of resources at IGI Airport.

DIAL being a responsible organization shall strive to fulfill environmental obligations and commitments by:

- Fulfilling all applicable environmental compliance obligations.
- Establishing and maintaining a management system to fulfill all our commitments and safeguard interests of all interested parties.
- Comprehensively assessing and managing all environmental risks and opportunities associated with our development and operational activities.
- Setting, monitoring and reviewing environmental objectives and targets for continual improvement of environment management system to enhance environment performance.
- Developing adequate competency in employees and other relevant stakeholders to manage environment risks & opportunities associated with their activities.
- Establish an integrated approach towards long term absolute GHG emission reduction targets and sustainable management of natural resources.
- Promoting “green supply chain” to the maximum extent considering the stakeholder expectations.
- Promote the use of “green building” concepts in all infrastructures of IGIA.

Videh Kumar Jaipuria
